CONFERENCE

VALUE ENGINEERING FOR RESURGENT INDIA

5th-6th December, 2026
Pune, India

The Indian Value Engineering Society (INVEST), established in 1977, advances the knowledge and practice of Value Engineering (VE) across sectors. It focuses on improving quality, productivity, profitability, competitiveness, and sustainability through versatile VE applications. Its initiatives are driven by the PACE framework – **Promote, Advocate, Certify, and Educate** – engaging diverse stakeholders. INVEST fosters a strong ‘value culture’ and serves as a trusted partner to industry and government.

Affiliated with SAVE International, INVEST delivers globally recognized training and certification programs in India. It also offers its own project-based certifications for students, trainers, and professionals, with real-life projects as a mandatory component. INVEST provides advisory services for applying VE in government and large-scale organizations, and collaborates on high-impact projects delivering societal value. It organizes national and international events and publishes the **quarterly journal ‘INVAVE’ with wide circulation.**

ABOUT THE **CONFERENCE**

The Indian Value Engineering Society is set to host the 41st International Value Engineering Conference, India’s exclusive global platform dedicated to advancing Value Engineering practices. Centered around the theme ‘**Value Engineering for Resurgent India**’, the conference

highlights the critical role of value-driven thinking in shaping a stronger, more innovative, and self-reliant nation.

It will bring together leaders from industry, government, and academia to exchange insights, showcase best practices, and

“

As a partner in Nation Building, INVEST aims to evangelize Value Engineering as a strategic methodology to convert economic, environmental and social challenges and opportunities into sustainable competitive advantage for government and industry at large.

”

explore transformative solutions. Participants will engage in thought-provoking sessions, case studies, and collaborative discussions that demonstrate how Value Engineering can enhance productivity and drive impactful decision-making.

As India moves toward a new era of resilience and global leadership, this event serves as a catalyst for innovation and strategic excellence. It promises to strengthen the Value Engineering ecosystem and position it as a cornerstone of India's resurgence.

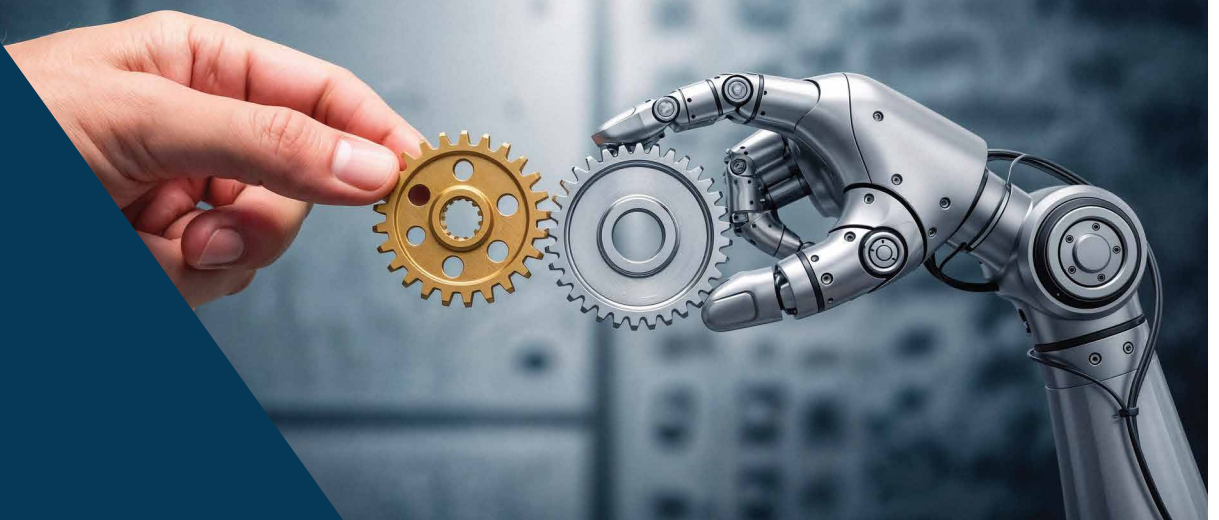

THE THEME 'VALUE ENGINEERING FOR RESURGENT INDIA'

The theme 'Value Engineering for Resurgent India' reflects the nation's journey toward sustainable growth and global leadership. It emphasizes the importance of optimizing resources while maximizing functional outcomes across sectors. In a rapidly evolving economy, Value Engineering serves as a strategic tool for improving efficiency and reducing waste.

The theme aligns with India's vision of self-reliance and innovation-driven development. It highlights the need for smarter decision-making in infrastructure, manufacturing, healthcare, and public

services. By integrating value-based methodologies, organizations can enhance productivity and long-term impact. The theme also underscores sustainability, ensuring that growth is both inclusive and environmentally responsible. It encourages collaboration between industry, government, and academia to drive systemic change.

As India rises on the global stage, Value Engineering becomes a key enabler of competitiveness and resilience. Ultimately, the theme inspires a mindset shift toward delivering greater value for society and the nation.

GUIDING POINTS FOR ALIGNING PAPERS AND PRESENTATIONS

Value Engineering for strengthening industrial innovations

Accelerating global development with Value Engineering

Sustainable Operations: Integrating Value Engineering with ESG Goals

Digital Transformation through Value Engineering

Value Engineering in Public Infrastructure and Policy Implementation

Value Engineering for Inclusive Development and Social Impact

WHO IS IT FOR?

The conference offers a rewarding experience for individuals and institutions worldwide interested in advancing Value Engineering for sustainability. It brings value to business leaders, administrators, entrepreneurs, practitioners, consultants, and students across sectors, providing a platform for learning, collaboration, and innovation.

WHAT WILL IT COMPRISE OF?

- Engaging thematic panel discussions and expert deliberations
- Showcasing of projects with outstanding achievements and impact
- Presentation of technical papers by professionals and researchers
- Awards recognizing best papers, innovations, and organisational excellence
- Opportunities for collaboration with diverse stakeholders
- Exhibition stalls to showcase projects, ideas, and innovations

* Professional Development Units (PDU) will be credited as per the sessions attended
